 7 (“Plaintiffs”), individually and on behalf of a Class of all those similarly situated in the United
 8 States, bring this action for damages and injunctive relief under state and federal antitrust, unfair
 9 competition, and consumer protection laws against the Defendants named herein, demanding
 10 trial by jury, and complaining and alleging as follows:

11 I. INTRODUCTION

12 1. Plaintiffs bring this antitrust class action on behalf of individuals and entities that
 13 indirectly purchased Cathode Ray Tube Products (“CRT Products”) (as further defined below),
 14 in the United States from Defendants, their predecessors, any subsidiaries or affiliates thereof, or
 15 any of their unnamed co-conspirators, during the period beginning at least as early as March 1,
 16 1995 until at least November 25, 2007 (the “Class Period”). Plaintiffs allege that during the
 17 Class Period the Defendants conspired to fix, raise, maintain and/or stabilize prices of CRT
 18 Products sold in the United States. Because of Defendants’ unlawful conduct, Plaintiffs and
 19 other Class Members paid artificially inflated prices for CRT Products and have suffered
 20 antitrust injury to their business or property.

21 2. As further detailed below, beginning in at least 1995, Defendants Samsung,
 22 Philips, Daewoo, LG and Chunghwa met or talked with at least one other Defendant in order to
 23 discuss and agree upon CRT Product prices and the amount of CRT Products each would
 24 produce. Over time, these Defendants reached out to the other Defendant CRT Product
 25 manufacturers, including Toshiba, Panasonic, Hitachi, BMCC, IRICO, Thai CRT and Samtel,
 26 who then also met or talked with their competitors for the purpose of fixing the prices of CRT
 27 Products. By 1997, a formal system of multilateral and bilateral meetings was in place,

1 involving the highest levels of the Defendant corporations, all with the sole purpose of fixing the
 2 prices of CRT Products at supracompetitive levels.

3 3. Throughout the Class Period, Defendants' conspiracy was effective in
 4 moderating the normal downward pressure on prices for CRT Products caused by periods of
 5 oversupply and competition from new technologies, such as TFT-LCD and Plasma.
 6 Defendants' conspiracy resulted in unusually stable pricing and even rising prices in a very
 7 mature, declining market. As a result of Defendants' unlawful conduct, Plaintiffs and Class
 8 members paid higher prices for CRT Products than they would have paid in a competitive
 9 market.

10 4. This global conspiracy is being investigated by the Antitrust Division of the
 11 United States Department of Justice ("DOJ"), and by several other international competition
 12 authorities. On February 10, 2009, a federal grand jury in San Francisco issued a two-count
 13 indictment against C.Y. Lin, the former Chairman and CEO of Defendant Chunghwa Picture
 14 Tubes, Ltd., for his participation in a global conspiracy to fix the prices of CRTs used in
 15 computer monitors and televisions. This is the first indictment to be issued in the DOJ's
 16 ongoing investigation into the CRT industry.

17 II. JURISDICTION AND VENUE

18 5. This action is instituted under Section 16 of the Clayton Act, 15 U.S.C. § 26, to
 19 obtain injunctive relief for violations of Section 1 of the Sherman Act, 15 U.S.C. § 1, to recover
 20 damages under state antitrust, unfair competition, and consumer protection laws, and to recover
 21 costs of suit, including reasonable attorneys' fees, for the injuries that Plaintiffs and all others
 22 similarly situated sustained as a result of the Defendants' violations of those laws.

23 6. The Court has subject matter jurisdiction over the federal claim under 28 U.S.C.
 24 §§ 1331 and 1337. The Court has subject matter jurisdiction over the state law claims under 28
 25 U.S.C. § 1367 because those claims are so related to the federal claim that they form part of the
 26 same case or controversy.

27 7. This court also has subject matter jurisdiction over the state law claims pursuant
 28 to the Class Action Fairness Act of 2005, which amended 28 U.S.C. § 1332 to add a new

1 subsection (d) conferring federal jurisdiction over class actions where, as here, “any member of
2 a class of Plaintiffs is a citizen of a state different from any Defendant and the aggregated
3 amount in controversy exceeds \$5,000,000, exclusive of interest and costs.” This Court also has
4 jurisdiction under 28 U.S.C. § 1332(d) because “one or more members of the class is a citizen of
5 a state within the United States and one or more of the Defendants is a citizen or subject of a
6 foreign state.”

7 8. Venue is proper in this Judicial District pursuant to Section 12 of the Clayton Act
8 (15 U.S.C. § 22) and 28 U.S.C. § 1391 (b), (c) and (d), because during the Class Period one or
9 more of the Defendants resided, transacted business, was found, or had agents in, this district,
10 and because a substantial part of the events giving rise to Plaintiffs’ claims occurred in this
11 district, and a substantial portion of the affected portion of the interstate trade and commerce
12 described below has been carried out in this district.

13 9. Defendants conduct business throughout the United States, including this
14 jurisdiction, and they have purposefully availed themselves of the laws of the United States,
15 including specifically the laws of the state of California and the individual states listed herein.
16 Defendants’ products are sold in the flow of interstate commerce, and Defendants’ activities had
17 a direct, substantial and reasonably foreseeable effect on such commerce.

18 10. Defendants’ conspiracy to fix the prices of CRT Products substantially affected
19 commerce throughout the United States and in each of the states identified herein, because
20 Defendants directly or through their agents, engaged in activities affecting each such state.
21 Defendants have purposefully availed themselves of the laws of each of the states identified
22 herein in connection with their activities relating to the production, marketing, and sale and/or
23 distribution of CRT Products. Defendants produced, promoted, sold, marketed, and/or
24 distributed CRT Products, thereby purposefully profiting from access to indirect purchaser
25 consumers in each such state. As a result of the activities described herein, Defendants:

26 a. Caused damage to the residents of the states identified herein;

- 1 b. Caused damage in each of the states identified herein by acts or omissions
2 committed outside each such state and by regularly doing or soliciting
3 business in each such state;
- 4 c. Engaged in a persistent course of conduct within each state and/or derived
5 substantial revenue from the marketing and sale of CRT Products in each
6 such state; and
- 7 d. Committed acts or omissions that they knew or should have known would
8 cause damage (and, in fact, did cause damage) in each such state while
9 regularly doing or soliciting business in each such state, engaging in other
10 persistent courses of conduct in each such state, and/or deriving
11 substantial revenue from the marketing and sale of CRT Products in each
12 such state.

13 11. The conspiracy described herein adversely affected every person nationwide, and
14 more particularly, consumers in each of the states identified in this Complaint, who indirectly
15 purchased Defendants' CRT Products. Defendants' conspiracy has resulted in an adverse
16 monetary effect on indirect purchasers in each state identified herein.

17 12. Prices of CRT Products in each state identified in this Complaint were raised to
18 supracompetitive levels by the Defendants and their co-conspirators. Defendants knew that
19 commerce in CRT Products in each of the states identified herein would be adversely affecting
20 by implementing their conspiracy.

21 III. DEFINITIONS

22 13. As used herein, the term "CRT" or "CRTs" stands for "cathode ray tube(s)." A
23 CRT is a display technology used in televisions, computer monitors and other specialized
24 applications. The CRT is a vacuum tube that is coated on its inside face with light sensitive
25 phosphors. An electron gun at the back of the vacuum tube emits electron beams. When the
26 electron beams strike the phosphors, the phosphors produce either red, green, or blue light. A
27 system of magnetic fields inside the CRT, as well as varying voltages, directs the beams to

produce the desired colors. This process is rapidly repeated several times per second to produce the desired images.

14. There are two types of CRTs: color display tubes (“CDTs”) which are used in computer monitors and other specialized applications; and color picture tubes (“CPTs”) which are used in televisions. CDTs and CPTs are collectively referred to herein as “cathode ray tubes” or “CRTs.”

15. As used herein "CRT Products" includes (a) CRTs; and (b) products containing CRTs, such as television sets and computer monitors.

16. The "Class Period" or "relevant period" means the period beginning at least March 1, 1995 through at least November 25, 2007.

17. “Person” means any individual, partnership, corporation, association, or other business or legal entity.

18. "OEM" means any Original Equipment Manufacturer of CRT Products.

1 **Thai CRT**

2 101. Defendant Thai CRT Company, Ltd. (“Thai CRT”) is a Thai company with its
 3 principal place of business located at 1/F Siam Cement Road, Bangsue Dusit, Bangkok,
 4 Thailand. Thai CRT is a subsidiary of Siam Cement Group. It was established in 1986 as
 5 Thailand’s first manufacturer of CRTs for color televisions. During the Class Period, Thai CRT
 6 manufactured, marketed, sold and/or distributed CRT Products, either directly or indirectly
 7 through its subsidiaries or affiliates, to customers throughout the United States.

8 **Samtel**

9 102. Defendant Samtel Color, Ltd. (“Samtel”) is an Indian company with its principal
 10 place of business located at 52, Community Centre, New Friends Colony, New Delhi-110065.
 11 Samtel’s market share for CRTs sold in India is approximately 40%. Samtel is India’s largest
 12 exporter of CRTs. Samtel has gained safety approvals from the United States, Canada, Germany
 13 and Great Britain for its CRT Products. During the Class Period, Samtel manufactured,
 14 marketed, sold and/or distributed CRT Products, either directly or indirectly through its
 15 subsidiaries or affiliates, to customers throughout the United States.

16 **Daewoo/Orion Entities**

17 103. During the Class Period, Orion Electric Company (“Orion”) was a major
 18 manufacturer of CRTs. Orion was a Korean corporation which filed for bankruptcy in 2004. In
 19 1995, approximately 85% of Orion’s \$1 billion in sales was attributed to CRTs. Orion was
 20 involved in CRT Product sales and manufacturing joint ventures and had subsidiaries all over
 21 the world, including South Africa, France, Indonesia, Mexico, and the United States. Plaintiffs
 22 are informed and believe that Orion was wholly owned by the “Daewoo Group.” The Daewoo
 23 Group included Daewoo Electronics Company, Ltd., Daewoo Telecom Company, Daewoo
 24 Corporation, and Orion Electric Components Company. The Daewoo Group was dismantled in
 25 or around 1999. Daewoo Electronics and Orion were 50/50 joint venture partners in an entity
 26 called Daewoo-Orion Société Anonyme (“DOSA”) in France. As of approximately 1996,
 27 DOSA produced 1.2 million CRTs annually. Daewoo sold DOSA’s CRT business in or around
 28 2004. In December 1995, Orion partnered with defendant Toshiba Corporation and two other

1 non-defendant entities to form P.T. Tosummit Electronic Devices Indonesia (“TEDI”) in
2 Indonesia. TEDI was projected to have an annual production capacity of 2.3 million CRTs by
3 1999. During the Class Period, Orion, Daewoo Electronics, TEDI and DOSA manufactured,
4 marketed, sold and/or distributed CRT Products, either directly or indirectly through their
5 subsidiaries or affiliates, to customers throughout the United States.

6 104. Daewoo Electronics, Orion, and DOSA are collectively referred to herein as
7 “Daewoo.”

8 105. All of the above-listed defendants are collectively referred to herein as
9 “Defendants.”

10 **VI. AGENTS AND CO-CONSPIRATORS**

11 106. Various other persons, firms and corporations, not named as Defendants herein,
12 and presently unknown to Plaintiffs, have participated as co-conspirators with Defendants and
13 have performed acts and made statements in furtherance of the conspiracy and/or in furtherance
14 of the anticompetitive, unfair or deceptive conduct. Plaintiffs reserve the right to name some or
15 all of these Persons as Defendants at a later date.

16 107. Whenever in this Complaint reference is made to any act, deed or transaction of
17 any corporation, the allegation means that the corporation engaged in the act, deed or transaction
18 by or through its officers, directors, agents, employees or representatives while they were
19 actively engaged in the management, direction, control or transaction of the corporation’s
20 business or affairs.

21 108. Defendants are also liable to acts done in furtherance of the alleged conspiracy by
22 companies they acquired through mergers or acquisitions.

23 109. Each of the Defendants named herein acted as the agent or joint venturer of or for
24 the other Defendants with respect to the acts, violations and common course of conduct alleged
25 herein. Each Defendant which is a subsidiary of a foreign parent acts as the sole United States
26 agent for CRT Products made by its parent company.

27 //

1 **VII. INTERSTATE TRADE AND COMMERCE**

2 110. Throughout the Class Period, each Defendant, or one or more of its subsidiaries,
 3 sold CRT Products in the United States in a continuous and uninterrupted flow of interstate and
 4 international commerce, including through and into this judicial district.

5 111. During the Class Period, Defendants collectively controlled the vast majority of
 6 the market for CRT Products, both globally and in the United States.

7 112. Defendants' unlawful activities, as described herein, took place within the flow
 8 of interstate commerce to purchasers of CRT Products located in states other than the states in
 9 which Defendants are located, as well as throughout the world, and had a direct, substantial and
 10 reasonable foreseeable effect upon interstate and international commerce, including the United
 11 States markets for CRT Products.

12 **VIII. FACTUAL ALLEGATIONS**

13 **A. CRT Technology**

14 113. CRT technology was first developed more than a century ago. The first
 15 commercially practical CRT television was made in 1931. It was not until the RCA Corporation
 16 introduced the product at the 1939 World's Fair, however, that it became widely available to
 17 consumers. Since then, CRTs have become the heart of most display products, including
 18 televisions, computer monitors, oscilloscopes, air traffic control monitors, and ATMs. Even
 19 large public displays, including many scoreboards at sports arenas, are comprised of thousands
 20 of single color CRTs.

21 114. As noted above, the CRT is a vacuum tube that is coated on its inside face with
 22 light sensitive phosphors. An electron gun at the back of the vacuum tube emits electron beams.
 23 When the electron beams strike the phosphors, the phosphors produce either red, green, or blue
 24 light. A system of magnetic fields inside the CRT, as well as varying voltages, directs the
 25 beams to produce the desired colors. This process is rapidly repeated several times per second
 26 to produce the desired images.

1 115. The quality of a CRT display is dictated by the quality of the CRT itself. No
 2 external control or feature can make up for a poor quality tube. In this regard, the CRT defines
 3 the whole product such that the product is often simply referred to as “the CRT.”

4 116. Until the last few years, CRTs were the dominant technology used in displays,
 5 including television and computer monitors. During the Class Period, this translated into the
 6 sale of millions of CRT Products, generating billions of dollars in annual profits.

7 **B. Structural Characteristics Of The CRT Market**

8 117. The structural characteristics of the CRT Product market are conducive to the
 9 type of collusive activity alleged in this Complaint. These characteristics include market
 10 concentration, ease of information sharing, the consolidation of manufacturers, multiple
 11 interrelated business relationships, significant barriers to entry, maturity of the CRT Product
 12 market, and homogeneity of products.

13 **a. Market Concentration**

14 118. During the Class Period, the CRT industry was dominated by relatively few
 15 companies. In 2004, defendants Samsung SDI, LG.Philips Displays (n/k/a LP Displays), MT
 16 Picture Display and Chunghwa together held a collective 78% share of the global CRT market.
 17 The high concentration of market share facilitates coordination since there are fewer cartel
 18 members among which to coordinate pricing or allocate markets, and it is easier to monitor the
 19 pricing and production of other cartel members.

20 **b. Information Sharing**

21 119. Because of common membership in trade associations for the CRT Product
 22 market and related markets (for e.g., TFT-LCD), interrelated business arrangements such as
 23 joint ventures, allegiances between companies in certain countries, and relationships between
 24 the executives of certain companies, there were many opportunities for Defendants to discuss
 25 and exchange competitive information. The ease of communication was facilitated by the use of
 26 meetings, telephone calls, e-mails, and instant messages. Defendants took advantage of these
 27 opportunities to discuss and agree upon their pricing for CRT Products.

1 120. Defendants Chunghwa, Hitachi and Samsung are all members of the Society for
 2 Information Display. Defendants Samsung and LG Electronics, Inc. are two of the co-founders
 3 of the Korea Display Industry Association. Similarly, Daewoo, LG Electronics, LP Displays,
 4 and Samsung are members of the Electronic Display Industrial Research Association. Upon
 5 information and belief, Defendants used these trade associations as vehicles for discussing and
 6 agreeing upon their pricing for CRT Products. At the meetings of these trade associations,
 7 Defendants exchanged proprietary and competitively sensitive information which they used to
 8 implement and monitor the conspiracy.

9 **c. Consolidation**

10 121. The CRT Product industry also had significant consolidation during the Class
 11 Period, including but not limited to: (a) the creation of LG.Philips Displays (n/k/a LP Displays)
 12 in 2001 as a joint venture between Royal Philips and LG Electronics, Inc.; and (b) the 2002
 13 merger of Toshiba and Matsushita/Panasonic's CRT business into MTPD.

14 122. Defendants also consolidated their manufacturing facilities in lower cost venues
 15 such as China and reduced manufacturing capacity to prop up prices.

16 **d. Multiple Interrelated Business Relationships**

17 123. The CRT Product industry has a close-knit nature whereby multiple business
 18 relationships between supposed competitors blur the lines of competition and provided ample
 19 opportunity to collude. These business relationships also created a unity of interest among
 20 competitors so that the conspiracy was easier to implement and enforce than if such
 21 interrelationships did not exist.

22 124. Examples of the high degree of cooperation among Defendants in both the CRT
 23 Product market and other closely related markets include the following:

24 a. The formation of the CRT joint venture LG.Philips Displays in 2001 by
 25 Defendants LG Electronics, Inc. and Royal Philips.

26 b. Defendants LG Electronics, Inc. and Royal Philips also formed
 27 LG.Philips LCD Co., Ltd., n/k/a LG Display Co., Ltd. in 1999 as a joint venture for the purpose
 28 of manufacturing TFT-LCD panels.

1 c. The formation of the CRT joint venture MTPD in 2003 by Defendants
2 Toshiba and Panasonic.

3 d. Defendants Toshiba and Panasonic also formed Toshiba-Matsushita
4 Display Technology Co., Ltd. as a joint venture for the purpose of manufacturing TFT-LCD
5 panels.

6 e. In December 1995, Defendants Daewoo and Toshiba partnered with two
7 other non-Defendant entities to form TEDI which manufactured CRTs in Indonesia.

8 f. Defendants Daewoo and Toshiba also signed a cooperative agreement
9 relating to LCDs in 1995. Pursuant to the agreement, Daewoo produced STN LCDs, and
10 Toshiba, which had substituted its STN LCD production with TFT LCD production, marketed
11 Daewoo's STN LCDs globally through its network.

12 g. Also in 1995, Defendant Chunghwa entered into a technology transfer
13 agreement with Defendant Toshiba for large CPTs.

14 h. Defendant Chunghwa has a joint venture with Defendant Samsung
15 Electronics Co., Ltd. for the production of liquid crystal display panels. Chunghwa now
16 licenses the technology from Defendant Royal Philips, a recent development that helped resolve
17 a patent infringement suit filed in 2002.

18 i. Defendants LG Electronics, Inc. and Hitachi Ltd. entered into a joint
19 venture in 2000 for the manufacture, sale and distribution of optical storage products such as
20 DVD drives.

21 j. Defendant Samtel participates in a joint venture, Samcor Glass Limited,
22 with Defendant Samsung Electronics Co., Ltd. and non-Defendant Corning Inc., USA for the
23 production and supply of picture tube glass.

24 k. Defendant Samtel claims to have supplied CRTs to Defendants LG
25 Electronics, Inc., Samsung, Royal Philips, and Panasonic.

26 e. **High Costs Of Entry Into The Industry**

27 125. There are substantial barriers to entry in the CRT Products industry. It would
28 require substantial time, resources and industry knowledge to even potentially overcome the

1 barriers to entry. It is also extremely unlikely that a new producer would enter the market in
 2 light of the declining demand for CRT Products.

3 **f. The Maturity Of The CRT Product Market**

4 126. Newer industries are typically characterized by rapid growth, innovation and high
 5 profits. The CRT Product market is a mature one, and like many mature industries, is
 6 characterized by slim profit margins, creating a motivation to collude.

7 127. Demand for CRT Products was declining throughout the Class Period. Static or
 8 declining demand is another factor which makes the formation of a collusive arrangement more
 9 likely because it provides a greater incentive to firms to avoid price competition.

10 128. In addition, conventional CRT televisions and computer monitors were being
 11 rapidly replaced by TFT-LCD and Plasma displays. This was one of the factors which led
 12 Defendants to engage in this alleged price fixing scheme in order to slow down declining CRT
 13 Product prices. Between 2000 and 2006, revenues from the sale of CRT televisions in the
 14 United States declined by 50.7 percent and are predicted to decline by an additional 84.5 percent
 15 between 2006 and 2010.

16 129. Although demand was declining as a result of the popularity of flat-panel
 17 LCD/plasma televisions and LCD monitors, CRT televisions and monitors were still the
 18 dominant display technology during the Class Period, making Defendants' collusion and the
 19 international price fixing conspiracy worthwhile. Due to the high costs of LCD panels and
 20 plasma displays during the Class Period, a substantial market for CRT Products existed as a
 21 cheaper alternative to these new technologies.

22 130. In 1999, CRT monitors accounted for 94.5 percent of the retail market for
 23 computer monitors in North America. By 2002, that figure had dropped to 73 percent; still a
 24 substantial share of the market.

25 131. As for CRT televisions, they accounted for 73 percent of the North American
 26 television market in 2004, and by the end of 2006, still held a 46 percent market share. CRT
 27 televisions continue to dominate the global television market, accounting for 75 percent of
 28 worldwide TV units in 2006.

1 g. **Homogeneity Of CRT Products**

2 132. CRT Products are commodity-like products which are manufactured in
 3 standardized sizes. One Defendant's CRT Products for a particular application, such as a
 4 particular size television set or computer monitor, is substitutable for another's. Defendants sell
 5 and Plaintiffs (and Class members) purchase CRT Products primarily on the basis of price.

6 133. It is easier to form and sustain a cartel when the product in question is
 7 commodity-like because it is easier to agree on prices to charge and to monitor those prices once
 8 an agreement is formed.

9 **C. Pre-Conspiracy Market**

10 134. The genesis of the CRT conspiracy was in the late 1980s as the CRT Products
 11 business became more international and the Defendants began serving customers that were also
 12 being served by other international companies. During this period, the employees of Defendants
 13 would encounter employees from their competitors when visiting their customers. A culture of
 14 cooperation developed over the years and these Defendant employees would exchange market
 15 information on production, capacity, and customers.

16 135. In the early 1990s, representatives from Samsung, Daewoo, Chunghwa and
 17 Orion visited each other's factories in S.E. Asia. During this period, these producers began to
 18 include discussions about price in their meetings. The pricing discussions were usually limited,
 19 however, to exchanges of the range of prices that each competitor had quoted to specific
 20 customers.

21 **D. Defendants' And Co-Conspirators' Illegal Agreements**

22 136. Plaintiffs are informed and believe, and thereon allege, that in order to control
 23 and maintain profitability during declining demand for CRT Products, Defendants and their co-
 24 conspirators have engaged in a contract, combination, trust or conspiracy, the effect of which
 25 has been to raise, fix, maintain and/or stabilize the prices at which they sold CRT Products to
 26 artificially inflated levels from at least March 1, 1995 through at least November 25, 2007.

27 137. The CRT conspiracy was effectuated through a combination of group and
 28 bilateral meetings. In the formative years of the conspiracy (1995-1996), bilateral discussions

were the primary method of communication and took place on an informal, ad hoc basis. During this period, representatives from Defendants LG, Samsung and Daewoo visited the other Defendant manufacturers including Philips, Chunghwa, Thai CRT, Hitachi, Toshiba, and Panasonic to discuss increasing prices for CRT Products in general and to specific customers. These meetings took place in Taiwan, South Korea, Thailand, Japan, Malaysia, Indonesia, and Singapore.

138. Defendants Samsung, Chunghwa, LG and Daewoo also attended several ad hoc group meetings during this period. The participants at these group meetings also discussed increasing prices for CRT Products.

139. As more manufacturers formally entered the conspiracy, group meetings became more prevalent. Beginning in 1997, the Defendants began to meet in a more organized, systematic fashion, and a formal system of multilateral and bilateral meetings was put in place. Defendants' representatives attended hundreds of these meetings during the Class Period.

140. The overall CRT conspiracy raised and stabilized worldwide prices (including United States prices) that Defendants charged for CRT Products.

16 a. **“Glass Meetings”**

17 141. The group meetings among the participants in the CRT price-fixing conspiracy
18 were referred to by the participants as “Glass Meetings” or “GSM.” Glass Meetings were
19 attended by employees at three general levels of the Defendants’ corporations.

20 142. The first level of these meetings were attended by high level company executives
21 including CEOs, Presidents, and Vice Presidents, and were known as “Top Meetings.” Top
22 Meetings occurred less frequently, typically quarterly, and were focused on longer term
23 agreements and forcing compliance with price fixing agreements. Because attendees at Top
24 Meetings had authority as well as more reliable information, these meetings resulted in
25 agreements. Attendees at Top Meetings were also able to resolve disputes because they were
26 decision makers who could make agreements.

27 143. The second level of meetings were attended by the Defendants’ high level sales
28 managers and were known as “Management Meetings.” These meetings occurred more

1 frequently, typically monthly, and handled implementation of the agreements made at Top
 2 Meetings.

3 144. Finally, the third level of meetings were known as “Working Level Meetings”
 4 and were attended by lower level sales and marketing employees. These meetings generally
 5 occurred on a weekly or monthly basis and were mostly limited to the exchange of information
 6 and discussing pricing since the lower level employees did not have the authority to enter into
 7 agreements. These lower level employees would then transmit the competitive information up
 8 the corporate reporting chain to those individuals with pricing authority. The Working Level
 9 Meetings also tended to be more regional and often took place near Defendants’ factories. In
 10 other words, the Taiwanese manufacturers’ employees met in Taiwan, the Korean
 11 manufacturers’ employees met in Korea, the Chinese in China, and so on.

12 a. The Chinese Glass Meetings began in 1998 and generally occurred on a
 13 monthly basis following a top or management level meeting. The China meetings had the
 14 principal purpose of reporting what had been decided at the most recent Glass Meeting to the
 15 Chinese manufacturers. Participants at the Chinese meetings included the manufacturers located
 16 in China, such as IRICO and BMCC, as well as the China-based branches of the other
 17 Defendants, including but not limited to Hitachi Shenzhen, Samsung SDI Shenzhen, Samsung
 18 SDI Tianjin, and Chunghwa.

19 b. Glass Meetings also occurred occasionally in various European countries.
 20 Attendees at these meetings included those Defendants which had subsidiaries and/or
 21 manufacturing facilities located in Europe, including Philips, LG, LP Displays, Chunghwa,
 22 Samsung, Daewoo (usually DOSA attended these meetings on behalf of Daewoo), and IRICO.

23 145. Representatives of the Defendants also attended what were known amongst
 24 members of the conspiracy as “Green Meetings.” These were meetings held on golf courses.
 25 The Green Meetings were generally attended by top and management level employees of the
 26 Defendants.

27 146. During the Class Period, Glass Meetings took place in Taiwan, South Korea,
 28 Europe, China, Singapore, Japan, Indonesia, Thailand, and Malaysia.

1 147. Participants would often exchange competitively sensitive information prior to a
 2 Glass Meeting. This included information on inventories, production, sales and exports. For
 3 some such meetings, where information could not be gathered in advance of the meeting, it was
 4 brought to the meeting and shared.

5 148. The Glass Meetings at all levels followed a fairly typical agenda. First, the
 6 participants exchanged competitive information such as proposed future CRT pricing, sales
 7 volume, inventory levels, production capacity, exports, customer orders, price trends, and
 8 forecasts of sales volumes for coming months. The participants also updated the information
 9 they had provided in the previous meeting. Each meeting had a rotating, designated "Chairman"
 10 who would write the information on a white board. The meeting participants then used this
 11 information to discuss and agree upon what price each would charge for CRTs to be sold in the
 12 following month or quarter. They discussed and agreed upon target prices, price increases, so-
 13 called "bottom" prices, and price ranges for CRTs. They also discussed and agreed upon prices
 14 of CRTs that were sold to specific customers, and agreed upon target prices to be used in
 15 negotiations with large customers. Having analyzed the supply and demand, the participants
 16 would also discuss and agree upon production cutbacks.

17 149. During periods of oversupply, the focus of the meeting participants turned to
 18 making controlled and coordinated price reductions. This was referred to as setting a "bottom
 19 price."

20 150. Defendants' conspiracy included agreements on the prices at which certain
 21 Defendants would sell CRTs to their own corporate subsidiaries and affiliates that manufactured
 22 end products, such as televisions and computer monitors. Defendants realized the importance of
 23 keeping the internal pricing to their affiliated OEMs at a high enough level to support the CRT
 24 pricing in the market to other OEMs. In this way, Defendants ensured that all direct purchaser
 25 OEMs paid supracompetitive prices for CRTs.

26 151. Each of the participants in these meetings knew, and in fact discussed, the
 27 significant impact that the price of CRTs had on the cost of the finished products into which
 28 they were placed. Like CRTs themselves, the market for CRT Products was a mature one, and

1 there were slim profit margins. The Defendants therefore concluded that in order to make their
 2 CRT price increases stick, they needed to make the increase high enough that their direct
 3 customers (CRT TV and monitor makers) would be able to justify a corresponding price
 4 increase to their customers. In this way, Defendants ensured that price increases for CRTs were
 5 passed on to indirect purchasers of CRT Products.

6 152. The agreements reached at the Glass Meetings included:

- 7 a. agreements on CRT Product prices, including establishing target prices,
 “bottom” prices, price ranges, and price guidelines;
- 8 b. placing agreed-upon price differentials on various attributes of CRT
 Products, such as quality or certain technical specifications;
- 9 c. agreements on pricing for intra-company CRT Product sales to vertically
 integrated customers;
- 10 d. agreements as to what to tell customers about the reason for a price
 increase;
- 11 e. agreements to coordinate with competitors that did not attend the group
 meetings and agreements with them to abide by the agreed-upon pricing;
- 12 f. agreements to coordinate pricing with CRT manufacturers in other
 geographic markets such as Brazil, Europe and India;
- 13 g. agreements to exchange pertinent information regarding shipments,
 capacity, production, prices and customers demands;
- 14 h. agreements to coordinate uniform public statements regarding available
 capacity and supply;
- 15 i. agreements to allocate both overall market shares and share of a particular
 customer’s purchases;
- 16 j. agreements to allocate customers;
- 17 k. agreements regarding capacity, including agreements to restrict output
 and to audit compliance with such agreements; and
- 18 l. agreements to keep their meetings secret.

1 153. Efforts were made to monitor each Defendant's adherence to these agreements in
 2 a number of ways, including seeking confirmation of pricing both from customers and from
 3 employees of the Defendants themselves. When cheating did occur, it was addressed in at least
 4 four ways: 1) monitoring; 2) attendees at the meetings challenging other attendees if they did not
 5 live up to an agreement; 3) threats to undermine a competitor at one of its principal customers;
 6 and 4) a recognition in a mutual interest in living up to the target price and living up to the
 7 agreements that had been made.

8 154. As market conditions worsened in 2005-2007, and the rate of replacement of
 9 CRT Products by TFT-LCDs increased, the group Glass Meetings became less frequent and
 10 bilateral meetings again became more prevalent. In addition, in December 2006 the DOJ issued
 11 subpoenas to manufacturers of TFT-LCDs and so the CRT co-conspirators began to have
 12 concerns about antitrust issues.

13 **b. Bilateral Discussions**

14 155. Throughout the Class Period, the Glass Meetings were supplemented by bilateral
 15 discussions between various Defendants. The bilateral discussions were more informal than the
 16 group meetings and occurred on a frequent, ad hoc basis, often between the group meetings.
 17 These discussions, usually between sales and marketing employees, took the form of in-person
 18 meetings, telephone contacts and emails.

19 156. During the Class Period, in-person bilateral meetings took place in Malaysia,
 20 Indonesia, Taiwan, China, United Kingdom, Singapore, South Korea, Japan, Thailand, Brazil
 21 and Mexico.

22 157. The purpose of the bilateral discussions was to exchange information about past
 23 and future pricing, confirm production levels, share sales order information, confirm pricing
 24 rumors, and coordinate pricing with manufacturers in other geographic locations, including
 25 Brazil, Mexico and Europe.

26 158. In order to ensure the efficacy of their global conspiracy, the Defendants also
 27 used bilateral meetings to coordinate pricing with CRT Product manufacturers in Brazil and
 28 Mexico, such as Philips Brazil, Samsung SDI Brazil, and Samsung SDI Mexico. These

1 Brazilian and Mexican manufacturers were particularly important because they served the North
 2 American market for CRT Products. As further alleged herein, North America was the largest
 3 market for CRT televisions and computer monitors during the Class Period. Because these
 4 Brazilian and Mexican manufacturers are all wholly-owned and controlled subsidiaries of
 5 Defendants Philips and Samsung SDI, they adhered to the unlawful price-fixing agreements. In
 6 this way, the Defendants ensured that prices of all CRT Products imported into the United States
 7 were fixed, raised, maintained and/or stabilized at supracompetitive levels.

8 159. Defendants also used bilateral discussions with each other during price
 9 negotiations with customers to avoid being persuaded by customers to cut prices. The
 10 information gained in these communications was then shared with supervisors and taken into
 11 account in determining the price to be offered.

12 160. Bilateral discussions were also used to coordinate prices with CRT Product
 13 manufacturers that did not ordinarily attend the group meetings, such as Defendants Hitachi,
 14 Toshiba, Panasonic, Thai CRT, and Samtel. It was often the case that in the few days following
 15 a Top or Management Meeting, the attendees at these group meetings would meet bilaterally
 16 with the other Defendant manufacturers for the purpose of communicating whatever CRT
 17 Product pricing and/or output agreements had been reached during the meeting.

18 161. For example, Samsung had a relationship with Hitachi and was responsible for
 19 communicating CRT Product pricing agreements to Hitachi. LG had a relationship with
 20 Toshiba and was responsible for communicating CRT Product pricing agreements to Toshiba.
 21 And Thai CRT had a relationship with Samtel and was responsible for communicating CRT
 22 Product pricing agreements to Samtel. Hitachi, Toshiba and Samtel implemented the agreed-
 23 upon pricing as conveyed by Samsung, LG, and Thai CRT. Sometimes Hitachi and Toshiba
 24 also attended the Glass Meetings. In this way, Hitachi, Toshiba and Samtel participated in the
 25 conspiracy to fix prices of CRT Products.

1 **c. Defendants' And Co-Conspirators' Participation In Group And Bilateral**
 2 **Discussions**

3 162. Between at least 1995 and 2007, Defendant Samsung, through SEC, Samsung
 4 SDI, Samsung SDI Malaysia, Samsung SDI Shenzhen, and Samsung SDI Tianjin, participated
 5 in at least 200 Glass Meetings at all levels. A substantial number of these meetings were
 6 attended by the highest ranking executives from Samsung. Samsung also engaged in bilateral
 7 discussions with each of the other Defendants on a regular basis. Through these discussions,
 8 Samsung agreed on prices and supply levels for CRT Products.

9 163. Defendants SEAI, Samsung SDI America, Samsung SDI Brazil, and Samsung
 10 SDI Mexico were represented at those meetings and were a party to the agreements entered at
 11 them. To the extent SEC and SEAI sold and/or distributed CRT Products, they played a
 12 significant role in the conspiracy because Defendants wished to ensure that the prices for CRT
 13 Products paid by direct purchasers would not undercut the CRT pricing agreements reached at
 14 the Glass Meetings. Thus, SEAI, Samsung SDI America, Samsung SDI Brazil, and Samsung
 15 SDI Mexico were active, knowing participants in the alleged conspiracy.

16 164. Between at least 1995 and 2001, Defendant LG, through LG Electronics, Inc. and
 17 LGETT, participated at least 100 Glass Meetings at all levels. After 2001, LG participated in
 18 the CRT Product conspiracy through its joint venture with Philips, LG.Philips Displays (n/k/a
 19 LP Displays). A substantial number of these meetings were attended by the highest ranking
 20 executives from LG. LG also engaged in bilateral discussions with each of the other Defendants
 21 on a regular basis. Through these discussions, LG agreed on prices and supply levels for CRT
 22 Products. LG never effectively withdrew from this conspiracy.

23 165. Defendant LGEUSA was represented at those meetings and was a party to the
 24 agreements entered at them. To the extent LGEUSA sold and/or distributed CRT Products, they
 25 played a significant role in the conspiracy because Defendants wished to ensure that the prices
 26 for CRT Products paid by direct purchasers would not undercut the pricing agreements reached
 27 at the Glass Meetings. Thus, LGEUSA was an active, knowing participant in the alleged
 28 conspiracy.

1 166. Between at least 1996 and 2001, Defendant Philips, through Royal Philips and
 2 Philips Taiwan, participated at least 100 Glass Meetings at all levels. After 2001, Philips
 3 participated in the CRT Product conspiracy through its joint venture with LG, LG.Philips
 4 Displays (n/k/a LP Displays). A substantial number of these meetings were attended by high
 5 level executives from Philips. Philips also engaged in numerous bilateral discussions with other
 6 Defendants. Through these discussions, Philips agreed on prices and supply levels for CRT
 7 Products. Philips never effectively withdrew from this conspiracy.

8 167. Defendants PENAC and Philips Brazil were represented at those meetings and
 9 were a party to the agreements entered at them. To the extent PENAC and Philips Brazil sold
 10 and/or distributed CRT Products to direct purchasers, they played a significant role in the
 11 conspiracy because Defendants wished to ensure that the prices for CRT Products paid by direct
 12 purchasers would not undercut the pricing agreements reached at the Glass Meetings. Thus,
 13 PENAC and Philips Brazil were active, knowing participants in the alleged conspiracy.

14 168. Between at least 2001 and 2006, Defendant LP Displays (f/k/a LG.Philips
 15 Displays) participated at least 100 Glass Meetings at all levels. A substantial number of these
 16 meetings were attended by the highest ranking executives from LP Displays. Certain of these
 17 high level executives from LP Displays had previously attended meetings on behalf of
 18 defendants LG and Philips. LP Displays also engaged in bilateral discussions with other
 19 Defendants. Through these discussions, LP Displays agreed on prices and supply levels for
 20 CRT Products.

21 169. Between at least 1995 and 2006, Defendant Chunghwa, through CPT, Chunghwa
 22 Malaysia, and representatives from their factories in Fuzhuo (China) and Scotland, participated
 23 in at least 100 Glass Meetings at all levels. A substantial number of these meetings were
 24 attended by the highest ranking executives from Chunghwa, including the former Chairman and
 25 CEO of CPT, C.Y. Lin. Chunghwa also engaged in bilateral discussions with each of the other
 26 Defendants on a regular basis. Through these discussions, Chunghwa agreed on prices and
 27 supply levels for CRT Products.

1 170. Defendant Tatung America was represented at those meetings and was a party to
 2 the agreements entered at them. To the extent Tatung America sold and/or distributed CRT
 3 Products to direct purchasers, it played a significant role in the conspiracy because Defendants
 4 wished to ensure that the prices for CRT Products paid by direct purchasers would not undercut
 5 the pricing agreements reached at the Glass Meetings. Thus, Tatung America was an active,
 6 knowing participant in the alleged conspiracy.

7 171. Between at least 1995 and 2004, Daewoo, through Daewoo Electronics, Orion
 8 and DOSA, participated in at least 100 Glass Meetings at all levels. A substantial number of
 9 these meetings were attended by the highest ranking executives from Daewoo. Daewoo also
 10 engaged in bilateral discussions with other Defendants on a regular basis. Through these
 11 discussions, Daewoo agreed on prices and supply levels for CRT Products. Bilateral
 12 discussions with Daewoo continued until Orion, its wholly-owned CRT subsidiary, filed for
 13 bankruptcy in 2004. Daewoo never effectively withdrew from this conspiracy.

14 172. Between at least 1995 and 2003, Defendant Toshiba, through Toshiba
 15 Corporation, TDDT and TEDI, participated in several Glass Meetings. After 2003, Toshiba
 16 participated in the CRT conspiracy through its joint venture with Panasonic, MTPD. These
 17 meetings were attended by high level sales managers from Toshiba and MTPD. Toshiba also
 18 engaged in multiple bilateral discussions with other Defendants, particularly with LG. Through
 19 these discussions, Toshiba agreed on prices and supply levels for CRT Products. Toshiba never
 20 effectively withdrew from this conspiracy.

21 173. Defendants Toshiba America, Inc., TACP, TAIP and TAEC were represented at
 22 those meetings and were a party to the agreements entered at them. To the extent Toshiba
 23 America, Inc., TACP, TAIP and TAEC sold and/or distributed CRT Products to direct
 24 purchasers, they played a significant role in the conspiracy because Defendants wished to ensure
 25 that the prices for CRT Products paid by direct purchasers would not undercut the pricing
 26 agreements reached at the Glass Meetings. Thus, Toshiba America, TACP, TAIP, and TAEC
 27 were active, knowing participants in the alleged conspiracy.

1 174. Between at least 1996 and 2001, Defendant Hitachi, through Hitachi, Ltd.,
 2 Hitachi Displays, Hitachi Shenzhen, and Hitachi Asia, participated in several Glass Meetings.
 3 These meetings were attended by high level sales managers from Hitachi. Hitachi also engaged
 4 in multiple bilateral discussions with other Defendants, particularly with Samsung. Through
 5 these discussions, Hitachi agreed on prices and supply levels for CRT Products. Hitachi never
 6 effectively withdrew from this conspiracy.

7 175. Defendants Hitachi America and HEDUS were represented at those meetings and
 8 were a party to the agreements entered at them. To the extent Hitachi America and HEDUS
 9 sold and/or distributed CRT Products to direct purchasers, they played a significant role in the
 10 conspiracy because Defendants wished to ensure that the prices for CRT Products paid by direct
 11 purchasers would not undercut the pricing agreements reached at the Glass Meetings. Thus,
 12 Hitachi America and HEDUS were active, knowing participants in the alleged conspiracy.

13 176. Between at least 1996 and 2003, Defendant Panasonic (known throughout the
 14 class period as Matsushita Electric Industrial Co., Ltd.), through Panasonic Corporation and
 15 Matsushita Malaysia, participated in several Glass Meetings. After 2003, Panasonic participated
 16 in the CRT conspiracy through its joint venture with Toshiba, MTPD. These meetings were
 17 attended by high level sales managers from Panasonic and MTPD. Panasonic also engaged in
 18 multiple bilateral discussions with other Defendants. Through these discussions, Panasonic
 19 agreed on prices and supply levels for CRT Products. Panasonic never effectively withdrew
 20 from this conspiracy.

21 177. Panasonic NA was represented at those meetings and was a party to the
 22 agreements entered at them. To the extent Panasonic NA sold and/or distributed CRT Products
 23 to direct purchasers, it played a significant role in the conspiracy because Defendants wished to
 24 ensure that the prices for CRT Products paid by direct purchasers would not undercut the pricing
 25 agreements reached at the Glass Meetings. Thus, Panasonic NA was an active, knowing
 26 participant in the alleged conspiracy.

27 178. Between at least 2003 and 2006, Defendant MTPD participated in multiple Glass
 28 Meetings and in fact led many of these meetings during the latter years of the conspiracy. These

1 meetings were attended by high level sales managers from MTPD. MTPD also engaged in
 2 bilateral discussions with other Defendants. Through these discussions, MTPD agreed on prices
 3 and supply levels for CRT Products.

4 179. Between at least 1998 and 2007, Defendant BMCC participated in multiple Glass
 5 Meetings. These meetings were attended by high level sales managers from BMCC. BMCC
 6 also engaged in multiple bilateral discussions with other Defendants, particularly the other
 7 Chinese CRT manufacturers. Through these discussions, BMCC agreed on prices and supply
 8 levels for CRT Products. None of BMCC's conspiratorial conduct in connection with CRT
 9 Products was mandated by the Chinese government. BMCC was acting to further its own
 10 independent private interests in participating in the alleged conspiracy.

11 180. Between at least 1998 and 2007, Defendant IRICO, through IGC, IGE, and
 12 IDDC, participated in multiple Glass Meetings. These meetings were attended by the highest
 13 ranking executives from IRICO. IRICO also engaged in multiple bilateral discussions with
 14 other Defendants, particularly with other Chinese manufacturers. Through these discussions,
 15 IRICO agreed on prices and supply levels for CRT Products. None of IRICO's conspiratorial
 16 conduct in connection with CRT Products was mandated by the Chinese government. IRICO
 17 was acting to further its own independent private interests in participating in the alleged
 18 conspiracy.

19 181. Between at least 1997 and 2006, Defendant Thai CRT participated in multiple
 20 Glass Meetings. These meetings were attended by the highest ranking executives from Thai
 21 CRT. Thai CRT also engaged in multiple bilateral discussions with other Defendants,
 22 particularly with Samtel. Through these discussions, Thai CRT agreed on prices and supply
 23 levels for CRT Products. Thai CRT never effectively withdrew from this conspiracy.

24 182. Between at least 1998 and 2006, Defendant Samtel participated in multiple
 25 bilateral discussions with other Defendants, particularly with Thai CRT. These meetings were
 26 attended by high level executives from Samtel. Through these discussions, Samtel agreed on
 27 prices and supply levels for CRT Products. Samtel never effectively withdrew from this
 28 conspiracy.

1 183. When Plaintiffs refer to a corporate family or companies by a single name in
 2 their allegations of participation in the conspiracy, Plaintiffs are alleging that one or more
 3 employees or agents of entities within the corporate family engaged in conspiratorial meetings
 4 on behalf of every company in that family. In fact, the individual participants in the
 5 conspiratorial meetings and discussions did not always know the corporate affiliation of their
 6 counterparts, nor did they distinguish between the entities within a corporate family. The
 7 individual participants entered into agreements on behalf of, and reported these meetings and
 8 discussions to, their respective corporate families. As a result, the entire corporate family was
 9 represented in meetings and discussions by their agents and were parties to the agreements
 10 reached in them.

11 **E. The CRT Market During The Conspiracy**

12 184. Until the last few years, CRTs were the dominant technology used in displays,
 13 including television and computer monitors. During the Class Period, this translated into the
 14 sale of millions of CRT Products, generating billions of dollars in annual profits.

15 185. The following data was reported by Stanford Resources, Inc., a market research
 16 firm focused on the global electronic display industry:

Year	Units Sold (millions)	Revenue (billion US dollars)	Average Selling Price Per Unit
1998	90.5	\$18.9	\$208
1999	106.3	\$19.2	\$181
2000	119.0	\$28.0	\$235

21 186. During the Class Period, North America was the largest market for CRT TVs and
 22 computer monitors. According to a report published by Fuji Chimera Research, the 1995
 23 worldwide market for CRT monitors was 57.8 million units, 28 million of which (48.5 percent)
 24 were consumed in North America. By 2002, North America still consumed around 35 percent
 25 of the world's CRT monitor supply. *See, The Future of Liquid Crystal and Related Display*
 26 *Materials*, Fuji Chimera Research, 1997, p.12.

27 187. Defendants' collusion is evidenced by unusual price movements in the CRT
 28 Product market during the Class Period. In the 1990s, industry analysts repeatedly predicted

1 declines in consumer prices for CRT Products that did not fully materialize. For example, in
 2 1992, an analyst for Market Intelligent Research Corporation predicted that “[e]conomies of
 3 scale, in conjunction with technological improvements and advances in manufacturing
 4 techniques, will produce a drop in the price of the average electronic display to about \$50 in
 5 1997.” Information Display 9/92 p.19. Despite such predictions, and the existence of economic
 6 conditions warranting a drop in prices, CRT Product prices nonetheless remained stable.

7 188. In 1996, another industry source noted that “the price of the 14” tube is at a
 8 sustainable USD50 and has been for some years....”

9 189. In early 1999, despite declining production costs and the rapid entry of flat panel
 10 display products, the price of large sized color CRTs actually rose. The price increase was
 11 allegedly based on increasing global demand. In fact, this price increase was a result of the
 12 collusive conduct as herein alleged.

13 190. After experiencing oversupply of 17" CRTs in the second half of 1999, the
 14 average selling price of CRTs rose again in early 2000. A March 13, 2000 article in *Infotech*
 15 *Weekly* quoted an industry analyst as saying that this price increase was “unlike most other PC-
 16 related products.”

17 191. A BNET Business Network news article from August 1998 reported that “key
 18 components (cathode ray tubes) in computer monitors have risen in price. ‘Although several
 19 manufacturers raised their CRT prices in the beginning of August, additional CRT price
 20 increases are expected for the beginning of October....While computer monitor price increases
 21 may be a necessary course of action, we [CyberVision, a computer monitor manufacturer] do
 22 not foresee a drop in demand if we have to raise our prices relative to CRT price increases.’”

23 192. A 2004 article from Techtree.com reports that various computer monitor
 24 manufacturers, including LG Electronics, Philips, and Samsung, were raising the price of their
 25 monitors in response to increases in CRT prices caused by an alleged shortage of glass shells
 26 used to manufacture the tubes. Philips is quoted as saying that, “It is expected that by the end of
 27 September this year [2004] there will be 20% hike in the price of our CRT monitors.”

193. Defendants also conspired to limit production of CRTs by shutting down production lines for days at a time, and closing or consolidating their manufacturing facilities.

194. For example, the Defendants' CRT factory utilization percentage fell from 90 percent in the third quarter of 2000 to 62 percent in the first quarter of 2001. This is the most dramatic example of a drop in factory utilization. There were sudden drops throughout the Class Period but to a lesser degree. Plaintiffs are informed and believe that these sudden, coordinated drops in factory utilization by the Defendants were the result of Defendants' agreements to decrease output in order to stabilize the prices of CRT Products.

195. During the Class Period, while demand in the United States for CRT Products continued to decline, Defendants' conspiracy was effective in moderating the normal downward pressures on prices for CRT Products caused by the entry and popularity of the new generation LCD panels and plasma display products. As Finsen Yu, President of Skyworth Macao Commerical Offshore Co., Ltd., a television maker, was quoted in January of 2007: "[t]he CRT technology is very mature; prices and technology have become stable."

196. During the Class Period, there were not only periods of unnatural and sustained price stability, but there were also increases in prices of CRT Products. These price increases were despite the declining demand due to the approaching obsolescence of CRT Products caused by the emergence of a new, potentially superior and clearly more popular, substitutable technology.

197. These price increases and price stability in the market for CRT Products during the Class Period are inconsistent with a competitive market for a product facing rapidly decreasing demand caused by a new, substitutable technology.

F. International Government Antitrust Investigations

198. Defendants' conspiracy to fix, raise, maintain and stabilize the prices of, and restrict output for, CRT Products sold in the United States during the Class Period, is demonstrated by a multinational investigation commenced by the Antitrust Division of the United States Department of Justice ("DOJ") and others in November 2007.

1 199. On November 8, 2007, antitrust authorities in Europe, Japan and South Korea
 2 raided the offices of manufacturers of CRTs as part of an international investigation of alleged
 3 price fixing.

4 200. On February 10, 2009, the DOJ issued a press release announcing that a federal
 5 grand jury in San Francisco had that same day returned a two-count indictment against the
 6 former Chairman and Chief Executive Officer of Defendant Chunghwa Picture Tubes, Ltd.,
 7 Cheng Yuan Lin, aka C.Y. Lin, for his participation in global conspiracies to fix the prices of
 8 two types of CRTs used in computer monitors and televisions. The press release notes that
 9 “[t]his is the first charge as a result of the Antitrust Division’s ongoing investigation into the
 10 cathode ray tubes industry.” The press release further notes that Lin had previously been
 11 indicted for his participation in a conspiracy to fix the prices of TFT-LCDs. Mr. Lin’s
 12 indictment states that the combination and conspiracy to fix the prices of CRTs was carried out,
 13 in part, in the Northern District of California.

14 201. Defendant MT Picture Display Co., Ltd., the CRT unit of Defendant Panasonic,
 15 has confirmed that it was raided by Japan’s Fair Trade Commission.

16 202. *Kyodo News* reported on November 8, 2007, upon information and belief, that
 17 MT Picture Display fixed prices for CRTs with manufacturers in three Asian countries,
 18 including South Korea’s Samsung SDI Co.

19 203. *Kyodo News* further reported that:

20 Officials of these three companies are believed to have had at least 10
 21 meetings since 2005 in major Asian cities to coordinate target prices when
 22 delivering their products to TV manufacturers in Japan and South Korea,
 the sources said.

23 204. Defendant Samsung SDI Co., Ltd. was raided by South Korea’s Fair Trade
 24 Commission, which has started an investigation into Samsung’s CRT business.

25 205. The *Asian Shimbun* further reported on November 10, 2007 that “[t]he
 26 representatives held meetings in Southeast Asia where the companies operate CRT factories, the
 27 sources said. The European Commission, the European Union’s executive branch, and the U.S.
 28 Justice Department have been investigating four companies’ [referring to the four Asian-based

1 manufacturers—MT Picture Display, Samsung SDI Co., Chunghwa Picture Tubes, LP Displays]
 2 overseas units and are closely consulting with the Fair Trade Commission by sharing
 3 information.”

4 206. On November 21, 2007, Defendant Royal Philips publicly disclosed that it too is
 5 subject to one or more investigations into anticompetitive conduct in the CRT industry. Royal
 6 Philips spokesman Joon Knapen declined to comment on which jurisdictions have started
 7 investigations. Royal Philips stated that it intended to assist the regulators.

8 207. In its 2008 Annual Report, Defendant Toshiba reports that “[t]he Group is also
 9 being investigated by the [European] Commission and/or the U.S. Department of Justice for
 10 potential violations of competition laws with respect to semiconductors, LCD products, cathode
 11 ray tubes (CRT) and heavy electrical equipment.”

12 208. On May 6, 2008, the Hungarian Competition Authority (“HCA”) announced its
 13 own investigation into the CRT cartel. The HCA described the cartel as follows:

14 The Hungarian Competition Authority (Gazdasági Versenyhivatal – GVH)
 15 initiated a competition supervision proceeding against the following
 16 undertakings: Samsung SDI Co., Ltd., Samsung SDI Germany GmbH,
 17 Samsung SDI Magyarország Zrt., Thomson TDP sp. Z.o.o., LG Philips
 18 Displays Czech Republic s.r.o., LP Displays, Chunghwa Picture Tubes
 19 (UK), Ltd., Chunghwa Picture Tubes, Ltd., Daewoo Orion S.A., Daewoo
 Electronics Global HQ, Daewoo Electronics European HQ, MT Picture
 Display Germany Gmbh, Matsushita Global HQ, Matsushita European
 HQ.

20 Based on the data available, the undertakings mentioned above concerted
 21 their practice regarding the manufacturing and distribution of cathode-ray
 22 tubes (including coloured picture tubes and coloured screen tubes) on the
 23 European market between 1995 and 2007. The anti-competitive behaviour
 24 may have concerned the exchange of sensitive market information (about
 25 prices, volumes sold, demand and the extent to which capacities were
 exploited), price-fixing, the allocation of market shares, consumers and
 volumes to be sold, the limitation of output and coordination concerning
 the production. The undertakings evolved a structural system and
 functional mechanism of cooperation.

26 According to the available evidences it is presumable that the coordination
 27 of European and Asian undertakings regarding to the European market also
 28 included Hungary from 1995 to 2007. The coordination concerning the
 Hungarian market allegedly formed part of the European coordination.

1 Samsung SDI Magyarország was called into the proceeding since it
 2 manufactured and sold cathode-ray tubes in Hungary in the examined
 3 period, and it allegedly participated in the coordination between its parent
 4 companies.

5 209. As outlined above, Defendants have a history of competitor contacts resulting
 6 from joint ventures, numerous cross-licensing agreements, and other alliances in related
 7 businesses in the electronics industry.

8 210. Several Defendants also have a history of “cooperation” and anticompetitive
 9 conduct. For example, Defendant Samsung was fined \$300 million by the U.S. Department of
 10 Justice in October 2005 for participating in a conspiracy to fix the prices of Dynamic Random
 11 Access Memory (DRAM).

12 211. Defendants Samsung and Toshiba have acknowledged being contacted by the
 13 U.S. Department of Justice as part of an ongoing investigation for fixing prices of Static
 14 Random Access Memory and NAND Flash Memory.

15 212. In December 2006, government authorities in Japan, Korea, the European Union
 16 and the United States revealed a comprehensive investigation into anticompetitive conduct in
 17 the closely-related TFT-LCD market.

18 213. On December 12, 2006, news reports indicated that Defendants Samsung and
 19 Chunghwa, as well as an LCD joint venture between Defendants Philips and LG Electronics,
 20 Inc, LG Display Co., Ltd., were all under investigation for price fixing of TFT-LCDs.

21 214. On November 12, 2008, the DOJ announced that it had reached agreements with
 22 three TFT-LCD manufacturers—LG Display Co., Ltd. (and its U.S. subsidiary, LG Display
 23 America, Inc.), Sharp Corporation, and Defendant Chunghwa Picture Tubes, Ltd.—to plead
 24 guilty to violations of Section 1 of the Sherman Act, 15 U.S.C. § 1, and pay a total of \$585
 25 million in criminal fines for their roles in a conspiracy to fix prices of TFT-LCD panels.

26 215. On March 10, 2009, the DOJ announced that it had reached an agreement with
 27 Defendant Hitachi Displays, Ltd., a subsidiary of Defendant Hitachi, Ltd., to plead guilty to
 28 violations of Section 1 of the Sherman Act, 15 U.S.C. § 1, and pay a \$31 million fine for its role
 in a conspiracy to fix the prices of TFT-LCD panels.

1 216. The indictments of LG Display Co., Ltd., Sharp Corporation, Chunghwa Picture
 2 Tubes, Ltd. and Hitachi Displays, Ltd., all state that the combination and conspiracy to fix the
 3 prices of TFT-LCDs was carried out, in part, in the Northern District of California.

4 **IX. THE PASS-THROUGH OF OVERCHARGES TO CONSUMERS**

5 217. Defendants' conspiracy to fix, raise, maintain and stabilize the price of CRT
 6 Products at artificial levels resulted in harm to Plaintiffs and the indirect purchaser consumer
 7 classes alleged herein because it resulted in their paying higher prices for CRT Products than
 8 they would have paid in the absence of Defendants' conspiracy. The entire overcharge at issue
 9 was passed on to Plaintiffs and members of the indirect purchaser classes. As the DOJ
 10 acknowledged in announcing the indictment of defendant Chunghwa's former Chairman and
 11 CEO, "This conspiracy harmed countless Americans who purchased computers and televisions
 12 using cathode ray tubes sold at fixed prices."

13 218. The Defendants identified above that attended the Glass Meetings, monitored the
 14 prices of televisions and computer monitors sold in the U.S. and elsewhere on a regular basis.
 15 The purpose and effect of investigating such retail market data was at least three fold. First, it
 16 permitted Defendants, such as Chunghwa, which did not manufacture CRT televisions or
 17 computer monitors the way that Samsung, LG, Daewoo, Panasonic, Toshiba, Philips, and
 18 Hitachi did, to police the price fixing agreement to make sure that intra-defendant CRT sales
 19 were kept at supra-competitive levels. Secondly, it permitted all Defendants to police their price
 20 fixing agreement to independent OEMs who would reduce prices for finished goods if there was
 21 a corresponding reduction in CRT prices from a Defendant. Finally, as discussed above,
 22 Defendants used the prices of finished products to analyze whether they could increase prices or
 23 should agree to a "bottom" price instead. The Defendants concluded that in order to make their
 24 CRT price increases stick, they needed to make the increase high enough that their direct
 25 customers (CRT TV and monitor makers) would be able to justify a corresponding price
 26 increase to their customers (for e.g., retailers and computer OEMs). In this way, Defendants
 27 assured that 100% of the suprareactive overcharges for CRT Products were passed on to
 28 indirect purchaser consumers.

1 219. The indirect purchaser consumer buys CRT Products from either a computer or
 2 TV OEM such as Dell or Sharp, or a reseller such as Best Buy.

3 220. Because of the breadth of the price-fixing conspiracy here, the direct purchaser
 4 CRT TV and monitor manufacturers were not constrained by their competitors from passing on
 5 the overcharge. Because each of the direct purchaser's competitors were also buying CRTs at
 6 supracompetitive prices from conspiracy members, no direct purchaser faced end-product price
 7 competition from a competitor that was not paying supracompetitive prices for CRTs.

8 221. The price of CRT Products is directly correlated to the price of CRTs. The
 9 margins for CRT TV and monitor makers are sufficiently thin that price increases of CRTs force
 10 them to increase the prices of their CRT Products. This means that increases in the price of
 11 CRTs lead to quick corresponding price increases at the OEM level for CRT Products.

12 222. Computer and TV OEMs and retailers of CRT Products are all subject to
 13 vigorous price competition, whether selling CRT TVs or computer monitors. The demand for
 14 CRTs is ultimately determined by purchasers of products containing such products. The market
 15 for CRTs and the market for CRT Products are therefore inextricably linked and cannot be
 16 considered separately. Defendants are well aware of this intimate relationship, and use forecasts
 17 of CRT TVs and computer monitors to predict sales of and determine production levels and
 18 pricing for CRTs.

19 223. Computers and televisions are commodities with little or no brand loyalty such
 20 that aggressive pricing causes consumers to switch preferences to different brands. Prices are
 21 closely based on production costs, which are in turn directly determined by component costs, as
 22 assembly costs are minimal. OEMs accordingly use component costs, like the cost of CRTs, as
 23 the starting point for all price calculations. On information and belief, computer and TV OEMs
 24 price their end-products on a "cost-plus" basis. Thus, computer and television prices closely
 25 track increases and decreases in component costs.

26 224. The CRT is the most expensive component in the products into which they are
 27 incorporated. On information and belief, the cost of the CRT in a computer monitor is
 28 approximately 60% of the total cost to manufacture the computer monitor. On information and

1 belief, the cost of the CRT in a television is a slightly smaller percentage of the total
 2 manufacturing cost because a television has more components than a computer monitor, such as
 3 the tuner and speakers.

4 225. Economic and legal literature recognizes that the more pricing decisions are
 5 based on cost, the easier it is to determine the pass-through rate. The directness of affected costs
 6 refers to whether an overcharge affects a direct (*i.e.*, variable) cost or an indirect (*i.e.*, overhead)
 7 cost. Overcharges will be passed through sooner and at a higher rate if the overcharges affect
 8 direct costs. Here, CRTs are a direct and substantial cost of CRT Products. Therefore, Plaintiffs
 9 will be able to show that the overcharge on the CRTs was passed through to indirect purchasers.

10 226. Once a CRT leaves its place of manufacture, it remains essentially unchanged as
 11 it moves through the distribution system. CRTs are identifiable, discreet, physical objects that
 12 do not change form or become an indistinguishable part of the TV or computer monitor in which
 13 they are contained. Thus, CRTs follow a traceable physical chain from the Defendants to the
 14 OEMs to the purchasers of finished products incorporating CRTs.

15 227. Moreover, just as CRTs can be physically traced through the supply chain, so can
 16 their price by traced to show that changes in the prices paid by direct purchasers of CRTs affect
 17 prices paid by indirect purchasers of CRT Products. On information and belief, computer and
 18 TV OEMs price their end-products on a “cost-plus” basis.

19 228. In retailing, it is common to use a “mark-up rule.” The retail price is set as the
 20 wholesale cost plus a percentage markup designed to recover non-product costs and to provide a
 21 profit. This system guarantees that increases in costs to the retailer will be passed on to end
 22 buyers. For example, CDW, a large seller of CRT monitors, uses such a system. A declaration
 23 in the *DRAM* case from CDW’s director of pricing details exactly how they calculated selling
 24 prices:

25 In general, CDW employs a “building block” approach to setting its
 26 advertised prices. The first building block is the Cost of Goods Sold
 27 (COGS), which represents the price CDW paid to acquire the
 28 product...CDW...adds a series of positive markups to the cost to CDW to
 acquire a given product. These markups are in addition to the pass

1 through effect of changes in the costs charged to CDW for that product by
 2 a given vendor.

3 229. Economic and legal literature has recognized that unlawful overcharges in a
 4 component normally result in higher prices for products containing that price-fixed component.
 5 As Professor Herbert Hovenkamp, a noted antitrust scholar, has stated in his treatise, FEDERAL
 6 ANTITRUST POLICY, THE LAW OF COMPETITION AND ITS PRACTICE (1994) at 624:

7 A monopoly charge at the top of the distribution chain generally results in
 8 higher prices at every level below. For example, if production of
 9 aluminum is monopolized or cartelized, fabricators of aluminum
 10 cookware will pay higher prices for aluminum. In most cases they will
 11 absorb part of these increased costs themselves and will pass part along to
 12 cookware wholesalers. The wholesalers will charge higher prices to the
 13 retail stores, and the stores will do it once again to retail consumers.
 14 Every person at every stage in the chain will be poorer as a result of the
 15 monopoly price at the top.

16 Theoretically, one can calculate the percentage of any overcharge that a
 17 firm at one distributional level will pass on to those at the next level.

18 230. Similarly, two other antitrust scholars—Professors Robert G. Harris (Professor
 19 Emeritus and former Chair of the Business and Public Policy Group at the Hass School of
 20 Business at the University of California at Berkeley) and the late Lawrence A. Sullivan
 21 (Professor of Law Emeritus at Southwestern School of Law and author of the Handbook of the
 22 Law of Antitrust)—have observed that “in a multiple-level chain of distribution, passing on
 23 monopoly overcharges is not the exception; it is the rule.”

24 231. As Professor Jeffrey McKie-Mason (Arthur W. Burks Professor for Information
 25 and Computer Science, Professor of Economics and Public Policy, and Associate Dean for
 26 Academic Affairs in the School of Information at the University of Michigan), an expert who
 27 presented evidence in a number of the indirect purchaser cases involving Microsoft Corporation,
 28 said (in a passage quoted in a judicial decision in that case granting class certification):

29 As is well known in economic theory and practice, at least some of the
 30 overcharge will be passed on by distributors to end consumers. When the
 31 distribution markets are highly competitive, as they are here, all or nearly
 32 the entire overcharge will be passed on through to ultimate consumers....
 33 Both of Microsoft’s experts also agree upon the economic phenomenon of

1 cost pass through and how it works in competitive markets. This general
 2 phenomenon of cost pass through is well established in antitrust laws and
 3 economics as well.

4 232. The purpose of Defendants' conspiratorial conduct was to fix, raise, maintain and
 5 stabilize the price of CRTs and, as a direct and foreseeable result, CRT Products. The market
 6 for CRTs and the market for CRT Products are inextricably linked. One exists to serve the
 7 other. Defendants not only knew, but expressly contemplated that prices of CRT Products
 8 would increase as a direct result of their increasing the prices of CRTs.

9 233. Finally, many of the Defendants and/or co-conspirators themselves have been
 10 and are currently manufacturers of CRT TVs and computer monitors. Such manufacturers
 11 include, for example, Samsung, LG, Hitachi, Toshiba, Philips, and Panasonic. Having agreed to
 12 fix prices for CRTs, the major component of the end products they were manufacturing, these
 13 Defendants intended to pass on the full cost of this component in their finished products, and in
 14 fact did so.

15 234. As a direct and proximate result of Defendants' illegal conduct, Plaintiffs and
 16 other indirect purchasers have been forced to pay supra-competitive prices for CRT Products.
 17 These inflated prices have been passed on to them by direct purchaser manufacturers,
 18 distributors and retailers.

19 X. CLASS ACTION ALLEGATIONS

20 235. Plaintiffs bring this action individually and as a class action pursuant to the
 21 provisions of Rule 23 of the Federal Rules of Civil Procedure on behalf of all members of the
 22 following class (the "Nationwide Class"):

23 All persons and or entities who or which indirectly purchased in the United
 24 States for their own use and not for resale, CRT Products manufactured and/or
 25 sold by the Defendants, or any subsidiary, affiliate, or co-conspirator thereof, at
 26 any time during the period from at least March 1, 1995 through at least
 27 November 25, 2007. Specifically excluded from this Class are the Defendants;
 28 the officers, directors or employees of any Defendant; any entity in which any
 Defendant has a controlling interest; and, any affiliate, legal representative, heir
 or assign of any Defendant. Also excluded are any federal, state or local
 government entities, any judicial officer presiding over this action and the

1 members of his/her immediate family and judicial staff, and any juror assigned to
2 this action.

3 236. Plaintiffs also bring this action on behalf of themselves and as a class action
4 pursuant to the provisions of Rule 23 of the Federal Rules of Civil Procedure and/or respective
5 state statute(s), on behalf of all members of the following State classes or subclasses
6 (collectively “Indirect Purchaser State Classes”): Arkansas, Arizona, California, District of
7 Columbia, Florida, Hawaii, Illinois, Iowa, Kansas, Maine, Massachusetts, Michigan, Minnesota,
8 Mississippi, Montana, Nebraska, Nevada, New Mexico, New York, North Carolina, North
9 Dakota, South Dakota, Tennessee, Vermont, West Virginia, and Wisconsin.

10 237. Each of the Indirect Purchaser State Classes is defined as follows:

11 All persons and or entities in Arkansas, Arizona, California, District of Columbia,
12 Florida, Illinois, Iowa, Kansas, Maine, Massachusetts, Michigan, Minnesota,
13 Mississippi, Montana, New Mexico, New York, North Carolina, North Dakota,
14 South Dakota, Tennessee, Vermont, West Virginia, and Wisconsin who or which
15 indirectly purchased for their own use and not for resale, CRT Products
manufactured and/or sold by the Defendants, or any subsidiary, affiliate, or co-
conspirator thereof, at any time during the period from at least March 1, 1995
through at least November 25, 2007.

16 All persons and entities in Hawaii who or which indirectly purchased for their
17 own use and not for resale CRT Products manufactured and/or sold by one or
18 more of the Defendants or any of their parents, affiliates, subsidiaries,
19 predecessors or successors in interest at any time from June 25, 2002 through at
least November 25, 2007.

20 All persons and entities in Nebraska who or which indirectly purchased for their
21 own use and not for resale CRT Products manufactured and/or sold by one or
22 more of the Defendants or any of their parents, affiliates, subsidiaries,
23 predecessors or successors in interest at any time from July 20, 2002 through at
least November 25, 2007.

24 All persons and entities in Nevada who or which indirectly purchased for their
25 own use and not for resale CRT Products manufactured and/or sold by one or
26 more of the Defendants or any of their parents, affiliates, subsidiaries,
27 predecessors or successors in interest at any time from February 4, 1999 through
at least November 25, 2007.

28 Specifically excluded from these Classes are the Defendants; the officers,
directors or employees of any Defendant; any entity in which any Defendant has a
controlling interest; and, any affiliate, legal representative, heir or assign of any

1 Defendant. Also excluded are any federal, state or local government entities, any
 2 judicial officer presiding over this action and the members of his/her immediate
 3 family and judicial staff, and any juror assigned to this action.

4 238. This action has been brought and may properly be maintained as a class action
 5 pursuant to Rule 23 of the Federal Rules of Civil Procedure for the following reasons:

6 a. The Classes are ascertainable and there is a well-defined community of
 7 interest among members of the Classes;
 8 b. Based upon the nature of trade and commerce involved and the number of
 9 indirect purchasers of CRT Products, Plaintiffs believe that the number of Class members is
 10 very large, and therefore joinder of all Class members is not practicable;

11 c. Plaintiffs' claims are typical of Class members' claims because Plaintiffs
 12 indirectly purchased CRT Products manufactured by Defendants or their co-conspirators, and
 13 therefore Plaintiffs' claims arise from the same common course of conduct giving rise to the
 14 claims of the members of the Classes and the relief sought is common to the Classes;

15 d. The following common questions of law or fact, among others, exist as to
 16 the members of the Classes:

17 i. Whether Defendants formed and operated a combination or
 18 conspiracy to fix, raise, maintain, or stabilize the prices of CRT Products;

19 ii. Whether the combination or conspiracy caused CRT Product
 20 prices to be higher than they would have been in the absence of Defendants' conduct;

21 iii. The operative time period of Defendants' combination or
 22 conspiracy;

23 iv. Whether Defendants' conduct caused injury to the business or
 24 property of Plaintiffs and the members of the Classes;

25 v. The appropriate measure of the amount of damages suffered by
 26 the Classes;

27 vi. Whether Defendants' conduct violates Section 1 of the Sherman
 28 Act (15 U.S.C. § 1) as alleged in the First Claim for Relief;

vii. Whether Defendants' conduct violates the Indirect Purchaser States' antitrust laws as alleged in the Second Claim for Relief;

viii. Whether Defendants' conduct violates the unfair competition and consumer protection laws of the Consumer Protection States as alleged in the Third Claim for Relief;

ix. The appropriate nature of class-wide equitable relief.

e. These and other questions of law and fact common to the members of the Classes predominate over any questions affecting only individual members, including legal and factual issues relating to liability and damages;

f. After determination of the predominant common issues identified above, if necessary or appropriate, the Classes can be divided into logical and manageable subclasses;

g. Plaintiffs will fairly and adequately protect the interests of the Classes in that Plaintiffs have no interests that are antagonistic to other members of the Classes and have retained counsel competent and experienced in the prosecution of class actions and antitrust litigation to represent them and the Classes;

h. A class action is superior to other available methods for the fair and efficient adjudication of this litigation since individual joinder of all damaged Class members is impractical. The damages suffered by the individual Class members are relatively small, given the expense and burden of individual prosecution of the claims asserted in this litigation. Thus, absent the availability of class action procedures it would not be feasible for Class members to redress the wrongs done to them. Even if the Class members could afford individual litigation, the court system could not. Further, individual litigation presents the potential for inconsistent or contradictory judgments and would greatly magnify the delay and expense to all parties and the court system. Therefore, the class action device presents far fewer case management difficulties and will provide the benefits of unitary adjudication, economy of scale and comprehensive supervision in a single court;

1 i. Defendants have acted, and/or refused to act, on grounds generally
 2 applicable to the Classes, thereby making appropriate final injunctive relief with respect to the
 3 Classes as a whole; and

4 j. In the absence of a class action, Defendants would be unjustly enriched
 5 because they would be able to retain the benefits and fruits of its wrongful conduct.

6 **XI. VIOLATIONS ALLEGED**

7 **A. First Claim for Relief: Violation of Section 1 of the Sherman Act**

8 239. Plaintiffs incorporate and reallege, as though fully set forth herein, each and
 9 every allegation set forth in the preceding paragraphs of this Complaint.

10 240. Beginning at a time unknown to Plaintiffs, but at least as early as March 1, 1995,
 11 through at least November 25, 2007, the exact dates being unknown to Plaintiffs and exclusively
 12 within the knowledge of Defendants, Defendants and their co-conspirators, entered into a
 13 continuing agreement, understanding, and conspiracy to unreasonably restrain trade and
 14 commerce in the United States, in violation of Section 1 of the Sherman Act, 15 U.S.C. §1.

15 241. In particular, Defendants have combined and conspired to fix, raise, maintain or
 16 stabilize the prices of CRT Products sold in the United States.

17 242. Defendants, by their unlawful conspiracy, artificially raised, inflated and
 18 maintained the market prices of CRT Products as herein alleged.

19 243. The contract, combination or conspiracy consisted of a continuing agreement,
 20 understanding and concert of action among Defendants and their co-conspirators, the substantial
 21 terms of which were to fix, raise, maintain and stabilize the prices of CRT Products they sold in
 22 the United States and elsewhere.

23 244. In formulating and carrying out the alleged agreement, understanding, and
 24 conspiracy, the Defendants and their co-conspirators did those things that they combined and
 25 conspired to do, including, but not limited to the acts, practices, and course of conduct set forth
 26 above, and the following, among others:

27 a. Participated in meetings and conversations to discuss the prices and
 28 supply of CRT Products in the United States and elsewhere;

- 1 b. Agreed to manipulate prices and limit supply of CRT Products sold in the
- 2 United States and elsewhere in a manner that deprived direct and indirect
- 3 purchasers of CRT Products of free and open competition;
- 4 c. Issued price announcements and price quotations in accordance with the
- 5 agreements reached;
- 6 d. Sold CRT Products to customers in the United States at non-competitive
- 7 prices; and
- 8 e. Invoiced customers in the United States at the agreed-upon, fixed prices
- 9 for CRT Products and transmitting such invoices via U.S. mail and other
- 10 interstate means of delivery.

11 245. The combination and conspiracy alleged herein has had the following effects,
12 among others:

- 13 a. Price competition in the sale of CRT Products has been restrained,
14 suppressed and/or eliminated in the United States;
- 15 b. Prices for CRT Products sold by Defendants and their co-conspirators
16 have been fixed, raised, maintained and stabilized at artificially high, non-
17 competitive levels throughout the United States; and
- 18 c. Those who purchased CRT Products directly or indirectly from
19 Defendants have been deprived the benefits of free and open competition.

20 246. As a direct result of the unlawful conduct of Defendants and their co-conspirators
21 in furtherance of their continuing contract, combination or conspiracy, Plaintiffs and the
22 members of the Nationwide Class have been injured and will continue to be injured in their
23 business and property by paying more for CRT Products purchased indirectly from the
24 Defendants and their co-conspirators than they would have paid and will pay in the absence of
25 the combination and conspiracy.

26 247. These violations are continuing and will continue unless enjoined by this Court.
27
28

1 248. Pursuant to Section 16 of the Clayton Act, 15 U.S.C. § 26, Plaintiffs and the
 2 Nationwide Class seek the issuance of an injunction against Defendants, preventing and
 3 restraining the violations alleged herein.

4 **B. Second Claim For Relief: Violation of State Antitrust Statutes**

5 249. Plaintiffs incorporate and reallege, as though fully set forth herein, each and
 6 every allegation set forth in the preceding paragraphs of this Complaint.

7 250. Plaintiff Brian Luscher (“Arizona Plaintiff”) incorporates and realleges each and
 8 every allegation set forth in the preceding paragraphs of this Complaint and further alleges as
 9 follows:

- 10 a. Defendants agreed to, and did in fact, act in restraint of trade or commerce
 by affecting, fixing, controlling and/or maintaining, at artificial and/or
 non-competitive levels, the prices at which CRT Products were sold,
 distributed or obtained in Arizona.
- 11 b. Defendants’ combinations or conspiracies had the following effects: (1)
 CRT Product price competition was restrained, suppressed, and
 eliminated throughout Arizona; (2) CRT Product prices were raised,
 fixed, maintained, and stabilized at artificially high levels throughout
 Arizona; (3) the Arizona Plaintiff and members of the Arizona Indirect
 Purchaser Class paid supracompetitive, artificially inflated prices for CRT
 Products.
- 12 c. During the Class Period, Defendants’ illegal conduct substantially
 affected Arizona commerce.
- 13 d. As a direct and proximate result of Defendants’ unlawful conduct, the
 Arizona Plaintiff and members of the Arizona Indirect Purchaser Class
 have been injured in their business and property and are threatened with
 further injury.

1 e. By reason of the foregoing, Defendants have entered into agreements in
 2 restraint of trade in violation of Ariz. Rev. Stat. §§44-1401, *et seq.*¹
 3 Accordingly, the Arizona Plaintiff and the members of the Arizona
 4 Indirect Purchaser Class seek all forms of relief available under Ariz. Rev.
 5 Stat. §§ 44-1401, *et seq.*

 10 as March 1, 1995, and continuing thereafter at least up to and including
 11 November 25, 2007, Defendants and their co-conspirators entered into
 12 and engaged in a continuing unlawful trust in restraint of the trade and
 13 commerce described above in violation of Section 16720, California
 14 Business and Professional Code. Defendants, and each of them, have
 15 acted in violation of Section 16720 to fix, raise, stabilize and maintain
 16 prices of CRT Products at supra-competitive levels.

17 b. The aforesaid violations of Section 16720, California Business and
 18 Professions Code, consisted, without limitation, of a continuing unlawful
 19 trust and concert of action among the Defendants and their co-
 20 conspirators, the substantial terms of which were to fix, raise, maintain
 21 and stabilize the prices of, and to allocate markets for CRT Products.

22 c. For the purpose of forming and effectuating the unlawful trust, the
 23 defendants and their co-conspirators have done those things which they
 24 combined and conspired to do, including but in no way limited to the acts,
 25 practices, and course of conduct set forth above and the following: (1)

27 ¹ In compliance with Arizona’s Antitrust Act, Ariz. Rev. Stat. § 44-1415, Plaintiffs shall,
 28 simultaneous with the filing of this Second Consolidated Amended Complaint, mail a copy of
 the Complaint to the Arizona Attorney General.

fixing, raising, stabilizing and/or maintaining the price of CRT Products; and (2) allocating among themselves the production of CRT Products.

d. The combination and conspiracy alleged herein has had, *inter alia*, the following effects: (1) price competition in the sale of CRT Products has been restrained, suppressed and/or eliminated in the State of California; (2) prices for CRT Products sold by Defendants and their co-conspirators have been fixed, raised, maintained and stabilized at artificially high, non-competitive levels in the State of California; and (3) those who purchased CRT Products directly or indirectly from Defendants and their co-conspirators have been deprived of the benefit of free and open competition.

- e. As a direct and proximate result of Defendants' unlawful conduct, Plaintiffs and the members of the California Class have been injured in their business and property in that they paid more for CRT Products than they otherwise would have paid in the absence of Defendants' unlawful conduct. As a result of Defendants' violation of Section 16720 *et seq.* of the California Business and Professions Code, Plaintiffs seek treble damages and the costs of suit, including reasonable attorneys' fees, pursuant to Section 16750(a) of the California Business and Professions Code.

252. Plaintiff Jeshua Reza (“DC Plaintiff”) incorporates and realleges each and every allegation set forth in the preceding paragraphs of this Complaint and further alleges as follows:

 14 not seek in this action to have those damages trebled pursuant to N.Y.
 15 Gen. Bus. Law § 349 (h).

8 consumer, Defendants breached that duty by their silence. Defendants
9 misrepresented to all consumers during the Class Period that Defendants
10 CRT Product prices were competitive and fair.

11 c. Because of Defendants' unlawful and unscrupulous trade practices in
12 Vermont, the Vermont Plaintiff and members of the Vermont Indirect

 16 increases during the relevant period and by describing such pricing falsely as being the result of

 19 changes, and agreeing upon which attendee would communicate the price change to which
 20 customer;
